Ingestion: If swallowed: Call a physician immediately. DO NOT induce vomiting unless directed to do so by a physician. Never give anything by mouth to an unconscious person. If vomiting occurs spontaneously, keep head below hips to prevent aspiration of liquid into the lungs. Give several glasses of water to drink to dilute.

Most Important Symptoms/Effects, Acute and Delayed:

Eye Contact: May cause mild to severe irritation.

Skin Contact: May cause mild irritation.

Skin Absorption: No absorption hazard expected under normal use.

Inhalation: May cause mild irritation.

Ingestion: May cause mild to severe irritation. Large amounts may cause: nausea, vomiting, diarrhea.

Indication of Immediate Medical Attention and Special Treatment Needed: There is no specific antidote. Treatment of overexposure should be directed at the control of symptoms and the clinical condition of the patient.

5. FIRE-FIGHTING MEASURES

Extinguishing Media: Dry chemical. Carbon dioxide. Water spray. Water fog.

Specific Hazards Arising from the Chemical:

Fire and Explosion Hazards: None known. No unusual fire and explosion hazards.

Hazardous Combustion Products: Carbon dioxide. Carbon monoxide. Nitrogen oxides. Toxic vapors.

Special Protective Equipment and Precautions for Fire-Fighters: Evacuate area of unprotected personnel. Wear protective clothing including NIOSH-approved self-contained breathing apparatus. Remain upwind of fire to avoid hazardous vapors and decomposition products. Use water spray to cool fire-exposed containers. CAUTION: Spilled material is slippery.

6. ACCIDENTAL RELEASE MEASURES

Personal Precautions, Protective Equipment, Emergency Procedures: Maintain adequate ventilation. Follow personal protective equipment recommendations found in Section 8.

Methods and Materials for Containment and Clean Up: CAUTION: Spilled material is slippery. Contain spill, place into drums for proper disposal. Soak up residue with inert absorbent material. Place in non-leaking containers for immediate disposal. Flush remaining area with plenty of water to remove trace residue and dispose of properly. Avoid direct discharge to sewers and surface waters. Notify authorities if entry occurs.

7. HANDLING AND STORAGE

Precautions for Safe Handling: Avoid contact with eyes, skin, and clothing. Use with adequate ventilation. Do not swallow. Wash thoroughly after handling. Promptly clean up spills. Do not add nitrites or other nitrosating agents. A nitrosamine, which may cause cancer, may be formed.

Conditions for Safe Storage, Including any Incompatibilities: Store in a cool, dry place. Keep away from incompatible materials. Keep containers tightly closed. Protect containers against physical damage.
