

Prepared according to Global Harmonized System (GHS) standards

### **SECTION 1**

### CHEMICAL PRODUCT IDENTIFICATION

#### CHEM-TECH

6551 Jansen Ave. NE, Suite 106 Albertville, MN 55301 Tel: 763-417-1380

Product Trade Name: Cyclone Red Wash & Degreaser

CAS Number: Mixture Synonyms/Other: N/A

Recommended Use: Alkaline detergent
Restrictions on Use: Not Determined
Created Date: 2/21/2019
Preparation/Revision Date: 9/11/2019

**Emergency Phone Number:** 1-800-424-9300 (CHEMTREC)

**SDS CODE**: 13294

## **SECTION 2**

# **HAZARD IDENTIFICATION**

Appearance: Clear, red liquid

Odor: Mild

Classification: Skin corrosion / irritation category 2

Eye damage / irritation category 1

Single target organ toxicant – single exposure category 2 Single target organ toxicant – repeated exposure category 2

Target Organs: Skin, Eyes, Developing organs

Pictogram(s):

Signal Word: DANGER

Hazard Statement: H315 - Causes skin irritation

H318 - Causes serious eye damage H371 - May cause damage to organs

H373 - May cause damage to organs through prolonged or repeated exposure

Other Hazards: Not determined.

**Prevention:** P233 - Keep container tightly closed

P260 - Do not breathe dust/fume/gas/mist/vapours/spray P264 - Wash areas of contact thoroughly after handling

P280 - Wear protective gloves/protective clothing/eye protection/face protection

Response: P310 - Immediately call a POISON CENTER or doctor/physician

P314 - Get Medical advice/attention if you feel unwell

P321 - Specific treatment (see Section 4)

P362 - Take off contaminated clothing and wash before reuse P302+P352 - IF ON SKIN: Wash with soap and water

P304+P341 - IF INHALED: If breathing is difficult, remove victim to fresh air and keep at

rest in a position comfortable for breathing

P305+P351+P338 - IF IN EYES: Rinse cautiously with water for several minutes.

Remove contact lenses if present and easy to do – continue rinsing

P309+P311 - IF exposed or you feel unwell: Call a POISON CENTER or doctor/physician

P332+P313 - If skin irritation occurs: Get medical advice/attention

Storage Procedures: P405 - Store locked up

**Disposal:** P501 - Dispose of contents and container in accordance with federal, state, and local

regulations

Other: See section 11 for complete health hazard information.

### **SECTION 3**

### **COMPOSITION OF INGREDIENTS**

Component	CAS Number	Percentage (by weight)
Sodium Metasilicate	6834-92-0	0-5%
Sodium Hydroxide	1310-73-2	0-5%
Proprietary Surfactant Blend	Trade Secret	5-10%
Tetrasodium EDTA	64-02-8	0-5%

**Trade Secret Information:** Specific chemical(s) and/or percentage of composition has been withheld as a trade secret. The balance of components do not contribute to the overall classification of the fluid, according to the GHS Standard.

### SECTION 4 FIRST AID MEASURES

Eye Contact: Avoid direct contact. Wear chemical protective gloves, if necessary. Remove source of

exposure or move person to fresh air. Rinse eyes cautiously with lukewarm, gently flowing water for several minutes, while holding the eyelids open. Remove contact lenses, if present and easy to do. Take care not to rinse contaminated water into the

unaffected eye or onto the face. Immediately call a doctor.

Skin Contact: Avoid direct contact. Wear chemical protective clothing, if necessary. Take off

contaminated clothing, shoes and leather goods (e.g. watchbands, belts). Wash skin with lukewarm, gently flowing water and mild soap until product is removed. Call a doctor if you feel unwell. If skin irritation or rash occurs: Get medical advice/attention. Wash

contaminated clothing before re-use.

**Inhalation:** Get medical advice or attention if you feel unwell or are concerned.

Ingestion: Rinse mouth. Do NOT induce vomiting. Immediately call a doctor. If vomiting occurs

naturally, lie on your side, in the recovery position.

Other: No additional information

## **SECTION 5**

## FIRE FIGHTING MEASURES

Flash Point: >100°C by Cleveland Open Cup Tester.

Flammable limits: Not applicable. Extinguishing media: Not applicable.

Special firefighting procedures: General directions - product will not burn without driving water from material first.

Evacuate area and fight fire from a safe distance. If leak or spill has not ignited, ventilate area and use water spray to disperse gas or vapor and to protect personnel attempting to stop a leak. Use water spray to cool adjacent structures and to protect personnel. Shut off source of flow if possible (safely). Stay away from storage tank ends. Withdraw immediately in case of rising sound from venting safety device or any discoloration of storage tank due to fire. Fire fighters must wear MSHA/NIOSH approved positive pressure breathing apparatus (SCBA) with full face mask and full protective equipment.

Unusual fire & explosion

hazards:

High temperatures may create heavy flammable vapors that may settle along ground

level and low spots to create an invisible fire hazard.

Byproducts of combustion: Fires involving this product may release oxides of carbon, nitrogen and sulfur; reactive

hydrocarbons and irritating vapors.

**Autoignition temperature:** 

Not determined.

**Explosion data:** 

Not determined. Care should always be exercised in dust/mist areas.

Other: Dispose of fire debris and contaminated extinguishing water in accordance with official

regulations.

### **SECTION 6**

### **ACCIDENTAL RELEASE MEASURES**

Spill control procedures (land): Immediately turn off or isolate any source of ignition (pilot lights, electrical equipment, flames, heaters, etc.). Evacuate area and ventilate. Personnel wearing proper protective equipment should contain spill immediately with inert materials (sand, earth, chemical spill pads of cotton) by forming dikes. Dikes should be placed to contain spill in a manner that will prevent material from entering sewers and waterways. Large spill, once contained, may be picked up using explosion proof, non-sparking vacuum pumps, shovels, or buckets, and disposed of in suitable containers for disposal. If a large spill occurs notify appropriate authorities. In case of road spill or accident contact Chem-Trec (800-424-9300).

Spill control procedures

(water):

Try to contain large spills with floating booms to prevent spill from spreading. Remove from surface by skimming or with suitable adsorbents. If a large spill occurs notify appropriate authorities (normally the National Response Center or Coast Guard at 800-

424-8802).

Waste disposal method: Do not empty into drains. All disposals must comply with federal, state, and local

> regulations. The material, if spilled or discarded may be a regulated waste. Refer to state and local regulations. Department of Transportation (DOT) regulations may apply

for transporting this material when spilled. See Section 14.

CAUTION - If spilled material is cleaned up using a regulated solvent, the resulting waste Other:

mixture will be regulated.

#### **HANDLING AND STORAGE SECTION 7**

Handling procedures: Keep containers closed when not in use. Do not transfer to unmarked containers. Empty

> containers retain product residue which may exhibit hazards of material, therefore do not pressurize, cut, glaze, weld, or use for any other purposes. Return drums to reclamation

centers for proper cleaning and reuse.

Handling temperatures should not exceed 60°C (140°F) to minimize danger of burns. Open containers carefully in a well ventilated area or use appropriate respiratory

protection. Wash thoroughly after handling.

Store containers away from heat, sparks, open flame, or oxidizing materials. Extended Storage procedures:

storage at excessive temperatures may produce odorous and toxic fumes from product

decomposition.

Additional information: No additional information.

#### **EXPOSURE CONTROLS / PERSONAL PROTECTION SECTION 8**

Exposure limits/standards for materials that can be formed when handling this product:

Component	CAS Number	OSHA PEL	ACGIH TLV
Sodium Metasilicate	6834-92-0	-	-
Sodium Hydroxide	1310-73-2	2 mg/m3	•
Proprietary Surfactant Blend	Trade Secret	-	-
Tetrasodium EDTA	64-02-8	2 mg/m3	2 mg/m3

NOTE: Limits/standards shown for guidance only. Follow applicable regulations.

No biological limits allocated.

Applicable mainly to persons in repeated contact situations such as packaging of product, Personal protection:

service/maintenance, and cleanup/spill control personnel.

None required if ventilation is adequate. Otherwise a respiratory protection program Respiratory protection:

> meeting OSHA 1910.134 and ANSI Z88.2 requirements must be followed. Where misting may occur, wear an MSHA/NIOSH approved (or equivalent) half-mask form

dust/mist air purifying respirator.

Eye protection: Eye protection is strongly recommended. Wear safety glasses with side shields or

vented/splash proof goggles (ANSI Z87.1 or approved equivalent).

Hand protection: Impervious, chemically resistant gloves such as neoprene or nitrile rubber to avoid skin

sensitization and absorption.

Other protection: Use of an apron and overboots of chemically impervious materials such as neoprene or

nitrile rubber is recommended based on level of activity and exposure. If handling hot material use insulated protective equipment. Launder soiled clothes. Properly dispose of contaminated leather articles and other materials which cannot be decontaminated.

Local control measures: Use adequate ventilation when working with material in an enclosed area. Mechanical

methods such as fume hoods or area fans may be used to reduce localized vapor/mist areas. If vapor or mist is generated when the material handled, adequate ventilation in accordance with good engineering practice must be provided to maintain concentrations below the specified exposure. Eyewash stations and showers should be available in

areas where this material is used and stored.

Other: Consumption of food and drink should be avoided in work areas where product is

present. Always wash hands and face with soap and water before eating, drinking or

smoking.

### **SECTION 9**

# **PHYSICAL AND CHEMICAL PROPERTIES**

Appearance: Clear, red liquid

Odor: Mild

Odor threshold: Not determined.

**pH**: 12-14

Melting/Freezing point: Not determined.

**Initial boiling point:** 100°C.

Boiling range: Not determined.

Flash point: >100°C.

Evaporation rate:

Flammability:

Upper flammable limit:

Lower flammable limit:

Vapor pressure:

Vapor density:

Relative density:

Not determined.

Not determined.

Not determined.

Not determined.

**Solubility:** Miscible in water, negligible in most petroleum solvents.

Partition Coefficient: Not determined.
Auto-ignition temperature: Not determined.
Decomposition temperature: Not determined.
Viscosity: Not determined.
Other Not applicable.

## **SECTION 10**

## **STABILITY AND REACTIVITY**

Reactivity

**Chemical stability:** Material is chemically stable at room temperatures and pressure.

Hazardous polymerization: Will not occur.

Conditions to avoid: Avoid high temperatures and product contamination.

Incompatibility with other Avoid contact with acids and strong oxidizing materials.

materials:

Decomposition products: Smoke, carbon monoxide, carbon dioxide, and other aldehydes of incomplete

combustion. Oxides of carbon, nitrogen, and sulfur; reactive hydrocarbons and irritating

vapors.

Other: Not applicable.

## **SECTION 11**

## **TOXICOLOGICAL INFORMATION**

Acute toxicity (LD50) \*See note at the bottom of the section

 Oral:
 >5000 mg/kg

 Dermal:
 >5000 mg/kg

 Inhalation:
 >20.0 mg/l

**Skin irritation:** Causes skin irritation

Eye irritation: Causes serious eye damage

**Dermal sensitization:** Not expected to have a sensitizing effect. **Respiratory sensitization:** Not expected to have a sensitizing effect.

Aspiration Hazard: Not applicable

**Chronic Toxicity** 

Mutagenicity: Not suspected of causing genetic defects

**Carcinogenicity:** Not suspected of causing cancer.

**Reproductive toxicity:** Not expected to have adverse effects on reproduction.

**STOT-single exposure:** May cause damage to organs.

**STOT-repeated exposure:** May cause damage to organs through prolonged or repeated exposure.

Other: \*All data in this section is based off calculations from Part 3 of the Globally Harmonized

System of Classification and Labelling of Chemicals (GHS) utilizing information from the

constituent components.

### **SECTION 12**

#### **ECOLOGICAL INFORMATION**

**Environmental toxicity** 

**Persistence/Degradability:** This product is not expected to be readily biodegradable.

Bioaccumulation: Not determined.

Mobility in soil: Not determined.

Other: All classifications are based on calculations in Part 4 of the Globally Harmonized System

of Classification and Labelling of Chemicals (GHS) utilizing information from the

constituent components.

### **SECTION 13**

## **DISPOSAL CONSIDERATIONS**

Waste disposal: This product unadulterated by other materials can be classified as a non-hazardous

waste. Depending on use, used product may be regulated. Dispose of in a licensed facility. Do not discharge product in to sewer system. Dispose of containers by crushing or puncturing, so as to prevent unauthorized use of used containers. Waste

management should be in full compliance with federal, state, and local laws.

Other The transportation, storage, treatment and disposal of RCRA waste material must be

conducted in compliance with 40 CFR 262, 263, 264, 268 and 270. Chemical additions, processing or otherwise altering this material may make the waste management information presented in this SDS incomplete, inaccurate or otherwise inappropriate.

Safety Data Sheet Cyclone Red Wash & Degreaser

**SECTION 15** 

# **REGULATORY INFORMATION**

**Federal Regulation** 

Clean water act/oil: No components of this product are listed.

TSCA: All components of this material are listed in the U.S. TSCA Inventory.

Other TSCA: Not applicable.

SARA title III: Section 302/304 extremely hazardous substances:

None.

Section 311, 312 hazard categorization:

Acute (immediate health effects): YES
Chronic (delayed health effects): YES
Fire (hazard): NO
Reactivity (hazard): NO
Pressure ( sudden release hazard): NO

Section 313 toxic chemicals:

No components present are at or greater than the de minimis (minimum reportable)

concentration requirements for reporting.

CERCLA: For stationary/moving sources – reportable quantity (due to): Not hazardous due to the

petroleum exclusion.

**State Regulations** 

Right-to-know Not determined.

Other:

A release of this product, as supplied, is exempt from reporting under the Comprehensive

Environmental Response Compensation and Liability Act (CERCLA). However, releases may be reportable to the Nation Response Center under the Clean Water Act, 33 U.S.C. 1321(b)(3) and (5) - see head of Section 15. Failure to report may result in substantial

civil and criminal penalties.

Recommend contacting the local authorities in the event of any type of spill to determine

local reporting requirements and also to aid in the cleanup.
